

BETTER GET TOGETHER AND PULL, THAN STAY APART AND BURROW!

(Written Specially for The Bulletin.) the very top and there make it the "What's the use of howling for better farming and bigger production by farmers, when we can't sell all we raise now at any profit?"

In the meantime—?

In the meantime, what's the matter with just keeping at it,—keeping ever-

In the meantime—?

In the meantime — the list the l of the terror that walketh by night and the gobble-uns that'll get 'em ef they don't watch out! "Then said Job's wife to him: Dost thou still retain thy integrity? Curse God and die." Probably Mrs. Job wasn't thinkdie." Probably Mrs. Job wasn't thinking of a second husband, either: she simply saw that Job had a lot of mighty bad boils and that neither skin olintments nor scraping with potsherds did any good. So What was the use?

Honest Injun, I don't know whether there's any use or not in trying to suggest ways for bettering existing had conditions. It's mightly discouraging the cash, income per farm without increasing farm production.

suggest ways for beltering existing bad conditions. It's mightly discouraging work, at times, now let me tell you! Instead of getting better, conditions on the farms of the east seem rather to be getting worse,—on the average, I mean. But, in spite, of black skies and gloomy outlooks, I can't help but feel that there must be a whole lot of farmers scattered over our hills and along our valleys who creasing farm production.

"This condition is undoubtedly a marketing problem, which will have to be soived by better organization of farmers and improved methods of marketing." I never put it any stronger than that, did I? A difference of sometimes 500 per cent between what the consumer pays and what the farmer gets: a problem which will have to be solved by better organization of farmers and improved methods of marketing: the helplessness of unorganized consumers and producers: and all the rest.

morning - keeps up throughout the day. It's hard to get out of bed, it's torture to stoop or straighten. Plasters and liniments may relieve, but cannot cure if the cause is inside-the kidneys. When suffering so, use Doan's Kidney Pills, the tested and proven kidney remedy, used in kidney troubles for over 50 years. Doan's Kidney Pills are recommended by

months I was bothered by pains across the small of my back and from other symptoms. I knew that my kidneys were at fault. I got a box of Doan's Kidney Pills at N. D. Sevin & Son's Drug Store, and soon after using them. the pain in my back disappeared and my health improved. I don't hesitate to recommend this excellent remedy."

For sale by all dealers. Price 50 bed wondering if the morning will never come, those hours at the end of the night seem uncommon black and weary. Perhaps we are in about that era, now. Perhaps the skies may have to grow even a shade darker before the dawn finally lifts. We have borne much for many years We have cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United

take no other.

And so, when Mrs. Job suggests counsels of despair and Old Man Grumper whines "What's the use?" some of us are inclined to answer back that we are not required to explain what the use is: that we don't care whether there's any immediate result or not: that its's better to be a minority with the truth than a majority with Satan: that Hope is a wiser counselor than Glant Despair: that Duty is something to be done, not shirked: and that crawling into holes is not the corect thing to do when the enemy's attack is hottest and the need of fighters direct.

"For, fierce though the fiends may fight And long though the angels bide, We know that Truth and Right Have the Universe on their side!"

Darkest before the dawn?" Why, already those with eyes keen enough to see them may perceive streakings of light on the horizon. No later than est them? yesterday I read an item from Long

been slapped on the one cheek and have meekly turned the other to have that punched, too. Perhaps we're going to be pounded over the head with a sand-bag, next. But I'm convinced that, some time, when things get so black and our pounded heads get so sore that we simply cannot stand it any longer, those of us who do not believe in crawling into holes will take one or the other of the clubs which lie ready to our hands and begin to fight.

And so, when Mrs. Job suggests counsels of despair and Old Man Grumper whines "What's the use?" some of us are inclined to answer back that we are not required to explain what the use is: that we don't care whether there's any immediate result for not: that its's better to be a minority with Satan: that Hope is a wiser counselor than Glant Despair: that Duty is something to be done, not shirked: and that crawling into holes is not the corect thing to do when the enemy's attack is hottest and the need of fighters direct.

The government expert who made the soil survey for New London county bluntly asserted as a fact that, at present, about two-thirds of the farm products consumed in the county are imported from elsewhere. Now, why couldn't the grangers of New London county combine to do for themselves in the markets right at their doors, what the Long Island grangers have combined to do for the market nearest them?

THE FARMER.

NEW LONDON LOSES BIG INDUSTRY

Hopson & Chapin Company About to Close Permanently-Has Had Weekly Payroll of \$15,000-Expert Drivers For Auto Fire Apparatus—Health Officer's Bill Held Up.

Chapin company, ocupying one of the largest manufacturing plants in the city, is about to close permanently. This will be a material loss to New London for at no time, even when business was very dull, was the weekly pay roll less than \$15,000. This, of course, does not apply to the brief period preparatory to the closing of the plant. This property is owned by the widow of John H. Hopson, the head of the company and who came admitted and dilated upon. For proof, read these extracts:

"The long line of distributors and middlemen between the farmer and the consumer are in a position to take advantage of the market, and to a certain extent control the market, in both directions, because they are better organized to keep informed of crop and market conditions and to act promptly than either farmers or consumers, who are not organized.

sign and wants to know what s the use of that? He seems to be a Twentieth century incarnation of Mrs. Job. He's convinced that neither medicines taken internally, nor washes used externally, nor persistent curry combings will cure the durn scab. What's left,—except to crawl into a hole and pull the hole in after him?

There may be nothing left,—for those who believe in holes as the proper retreat for soldiers on the firing line.

London Business Men's association, which as association, which has been what has been guarding the health of the city and fighting off some contagious disease. All for what he considers faithful performance of duty, as his financial six months' millinety course at a sidering the service rendered.

It would have been a wise move on the part of the councilmen, to have is so well-known. The Hopson and Chapin company is of the kind that no city can afford to lose. Some fellow said something of the bird in the said something of the bird in the character of farms association, which, acording to what has been guarding the health of the city and fighting off some contagious disease. All for what he considers faithful performance of duty, as his financial six months' millinety course at a sidering the service rendered.

It would have been a wise move on the part of the councilmen, to have warmined into the details of the bill recompense is almost niggardly considering the service rendered.

It would have been a wise move on the part of the councilmen, to have warmined into the details of the bill recompense is almost niggardly considering the service rendered.

It would have been a wise move on the part of the councilmen, to have warmined into the details of the bill recompense is almost niggardly considering the service rendered.

It would have been a wise move on the part of the councilmen, to have warmined into the details of the bill rendered before voting to defer payment, pending investigation. The total valigation of all guty more than the considers of the part of the councilmen, to have ring line.
But I for one can't yet force my- hand and a couple of birds in the

thousands for just such cases. Proof of their effectivenss in the testimony of this Norwich resident:

Mrs. Jared Hewitt, Palmer Street, Norwich, Conn., says: "For several deal of bending and twisting without tude and perhaps that in the long run tude and perhaps that in the long run the city may not be the loser by the retirement from the manufacturing deal of bending and twisting without letting go. And the average New England farmer is quite like old hickory; shaggy-barked on the outside, but with pretty good material inbusiness of the Hopson and Chapin

> The Pope-Hartford fire apparatus There's an old saying that it's always darkest just before dawn. Whether it actually is so, may be a question. Certainly to the wakeful watcher who tosses uneasily on his bed wondering if the morning will Thomas Hose house. Prior to that time still alarms in that section were exceedingly rare, but now there is a call almost every time black smoke is emitted from a chimney. The ma-chine has been temporarily repaired and is back into commission, but it is to get around understood that arrangements have Mrs. Nellie Kelley and son Francis been made that will result in lessen-ing the number of unnecessary runs. possible. They have been staying at Since the Pope-Hartford has been in commission it has probably traveled more miles than most any other apparatus in the state for a like period, for when not going to still alarms it has been on practice runs or trial tests. Now that the novelty has worn and the machine has had it first early and the machine has had its first serious mishap, and without injury to any of the firemen, it is expected that the machine will be devoted hereafter

It is perhaps this accident more than anything else that prompted Alderman Miner to have a vote passed in the court of common council that no person will be permitted to drive a motor driven fire apparatus until he shall have passed a prescribed examination to the full satisfaction of the fire committee. This action does not indicate that the council is of opinion that other fire apparatus drivers are not up to the standard. The drivers of the Pequot apparatus are all experienced and apparatus an illustration of the Good at least six years in fire apparatus driving, the other is an experienced and licensed chauffeur and the spare and licensed chauffeur and the spare man is conceded to be an expert meman is conceded to be an expert memon in the conceded to be an exp apparatus are all experienced and licensed chauffeurs, while one of the Niagara drivers has had experience of The Good W. keep and operation. The operators of the automobiles of the department are also ilcensed chauffeurs.

Therefore the action of the council in this particular is not in the least objectionable to the drivers and, no doubt, they all court examination by doubt, they all court examination by those who are competent to examine. It is essential that the drivers of these vehicles should not only be competent, but cool-headed, careful and able to act right in an emergency and be wholly devoid of recklessness under all circumstances. The council acted well in demanding familiarity with the qualifications of the drivers of motor-driven fire apthe drivers of motor-driven fire ap-

Just because Health Officer J. Terrington Black handed in a bill to the court of common council amounting to \$1,025.16 for the care of small pox patients and preventing the spread of the dread disease in New Lendon, the cellege work in any way.

The stenographers have either secured round price cured room at the cottage or in price ple's service was led by Mrs. Katle Rowers.

The pastor, Rev. Mr. Sherman, is since the erection of the large dorpatients and preventing the spread of mitories does not seriously affect the the dread disease in New Lendon, the cellege work in any way.

After a business career of thirty council appeared horrified and act-years in New London, the Hopson and Chapin company, ocupying one of the True the bill was incurred in a sinhead of the company and who came had developed, the modern and hand-to New London from Wethersfield and some Mitchell contagious hospital had established business. Since the death not been completed and it was there-

established business. Since the death of John Hopson the business has been conducted by William T. Hopson, who will continue in the installation of the Hopson and Chapin system of heating. The material will probably be manufactured elsewhere but business will be continued under the firm name with offices presumbly in the Manwaring building.

The great majority of the employes have been with the Hopson company from twenty to twenty-five years and some have been with the company since it located in New London. It was one of those concerns where the

some have been with the company can't help but feel that there must be a whole lot of farmers scattered over thills and along our valleys who ready have got some hope in their ball-bearts and some some hope in their ball-bearts and some some some in their ball-bearts and some some in their some some in their ball-beart some some in their some some of the southers and declared the charges to be ween subtributed to be some of the southers and declared the charges to the workers and employees and the southers and employees and the southers

the and in keeping with the character of the service rendered. It is getting rid of an epidemic of smallbox for a very an epidemic of smallpox for a very little money. The citizens are sails-fled and their representatives in the council should be, even if the city of Norwich does not reimburse a part of the expense incurred in the care of Bessle Jackson a resident of that city.
